Subject: Division Directive to Reclaim or Re-Submit Notice of Intention, Zamaroni Quarry, Inc.,
Antelope Valley Quarry, S/039/0016, Sanpete County, Utah

Dear Mr. Zamaroni:

As per the requirements of R647-3-113.5, the Division of Oil Gas and Mining issued a Division directive (dated May 13, 2013) to complete all regrading and seeding work of the Antelope Valley quarry by October 15, 2013. The Division inspected the site on October 17, 2013, and no reclamation work had been done.

In a November 13, 2013, communication with Peter Brinton, you indicated you had a local equipment operator prepared to do reclamation but that you were interested in re-starting operations. The Division has not yet been notified of any plans you might have to re-commence mining, which will require re-authorization of your Notice of Intention to Commence Small Mining Operations.

You are hereby directed to EITHER:

- 1) **Submit a new Notice of Intention to Commence Small Mining Operations (Notice), the required maps, a new Reclamation Contract, and an updated reclamation surety by February 18, 2014.** The 2013 reclamation surety amounts and Notice documents can be found at the Division website at <http://linux1.ogm.utah.gov/WebStuff/wwwroot/minerals/default.html>. You will also need to renew your Utah business registration with the Division of Corporations.

OR

- 2) **Regrade all mining-related disturbances and seed the regraded areas by April 1, 2014.** Roads built to access the quarry will also need to be reclaimed (see aerial photographs). Refer to the requirements for reclamation of small mining operations in rule R647-3-109. The Division recommends that the site be reseeded on freshly-roughened soil as soon after regrading as possible using the enclosed seed mix. It is in your best interest to keep seed tags and to document ground and weather conditions on the date of seeding. The Division would appreciate receiving this information by mail or email.

Failure to submit a new Notice or to complete reclamation will likely result in enforcement action and associated fines and may lead to forfeiture of the reclamation surety.

Please contact Peter Brinton at 801-538-5258 or me at 801-538-5261 if you have questions or concerns about this letter, or if you need permitting information. Thank you for your cooperation.

Sincerely,

A handwritten signature in dark ink, appearing to read 'P. Baker', written over the printed name.
